

Sarah Johnson

Senior Software Engineer | sarah.johnson@email.com | (555) 987-6543 | [LinkedIn](#) | [GitHub](#)

Professional Summary

Experienced software engineer with 8+ years of expertise in full-stack development, cloud architecture, and team leadership. Passionate about building scalable applications and mentoring junior developers. Strong background in Python, JavaScript, and modern web technologies.

Technical Skills

- **Programming Languages:** Python, JavaScript, TypeScript, Java, Go
- **Frontend Technologies:** React, Vue.js, HTML5, CSS3, SASS
- **Backend Technologies:** Django, Flask, Node.js, Express.js
- **Databases:** PostgreSQL, MongoDB, Redis, MySQL
- **Cloud Platforms:** AWS, Google Cloud Platform, Azure
- **DevOps Tools:** Docker, Kubernetes, Jenkins, GitLab CI/CD
- **Other Tools:** Git, Linux, Nginx, Elasticsearch

- Developed responsive web applications using React and Node.js
- Built real-time data processing pipelines handling 100K+ events per minute
- Optimized database queries and caching strategies, improving performance by 50%
- Participated in agile development process and code review practices
- Integrated third-party APIs and payment processing systems
- Contributed to open-source projects and technical documentation

Junior Software Engineer

StartupXYZ | Palo Alto, CA | August 2016 - May 2018

Professional Experience

Senior Software Engineer

TechCorp Solutions | San Francisco, CA | January 2020 - Present

- Lead development of microservices architecture serving 2M+ daily active users
- Designed and implemented RESTful APIs with 99.9% uptime using Python and Django
- Mentored team of 6 junior developers, improving code quality and delivery speed by 40%
- Architected cloud infrastructure on AWS, reducing operational costs by 25%
- Implemented automated testing strategies achieving 95% code coverage
- Collaborated with product managers and designers to deliver user-centric features

Software Engineer

InnovateTech | San Francisco, CA | June 2018 - December 2019

- Implemented frontend components using React and modern JavaScript
- Developed backend services with Python Flask and PostgreSQL
- Worked closely with UX designers to create intuitive user interfaces
- Participated in daily standups and sprint planning meetings
- Debugged and resolved production issues in collaborative environment

- **AWS Certified Solutions Architect - Associate** | 2021
- **Google Cloud Professional Developer** | 2020
- **Certified Kubernetes Administrator (CKA)** | 2019

Education

Bachelor of Science in Computer Science

Stanford University | Stanford, CA | September 2012 - June 2016

- **GPA:** 3.8/4.0
- **Relevant Coursework:** Data Structures & Algorithms, Software Engineering, Database Systems, Computer Networks, Machine Learning
- **Activities:** President of Computer Science Society, Hackathon Winner (2015)

Projects

E-Commerce Platform

Personal Project | 2021

- Built full-stack e-commerce application using React, Node.js, and MongoDB
- Implemented secure payment processing with Stripe API
- Deployed on AWS with automated CI/CD pipeline
- **Technologies:** React, Node.js, MongoDB, Stripe, AWS, Docker

Task Management System

Open Source Contribution | 2020

- Contributed to popular task management tool with 10K+ GitHub stars
- Implemented real-time collaboration features using WebSocket
- Improved performance of data synchronization by 60%
- **Technologies:** Vue.js, Python, Redis, WebSocket

Certifications

Awards & Recognition

- **Employee of the Year** - TechCorp Solutions (2021)
- **Innovation Award** - InnovateTech (2019)
- **Best Hackathon Project** - Stanford University (2015)

Languages

- **English:** Native
- **Spanish:** Conversational
- **Mandarin:** Basic
